Dear Mr. Terreni:

I am filing the following written comments to you in accordance with Docket No. 2005-385-E – Order No. 2006-680 on the consideration of implementing the requirements of Section 1251 (Net Metering and Additional Standards) of the Energy Policy Act of 2005.

I support the federal government's plan for net metering for the following reasons:

1. Our current reliance on fossil fuels (including coal, petroleum, and natural gas) is unsustainable in the long run.
2. Net metering has already been successfully implemented in 40 states and the District of Columbia.
3. Net metering provides a significant financial incentive to change the way we generate electricity and to lower fossil fuel emissions.

For the above-mentioned reasons I strongly encourage the PSC to set net metering as the standard for the public utilities that it regulates.

Sincerely,  
Signature

Catherine Martin

Re: 2005-385-E (Order No. 2006-680)

To Whom It May Concern:

I am writing to demonstrate my **STRONG** support for the Requirements of Section 1251 (Net Metering and Additional Standards) of the Energy Policy Act of 2005.

For the sake of my children and my children's children I beg those involved to likewise support this, so we can eliminate our dependence on fossil fuels!

Thank you for your attention to this matter.

Sincerely,

*Gary F. Thornhill*
